

The Friends of the Four Homes of Mercy

Christmas 2017

Christmas joys!

Thanks to a large mouse, Nawal could again display her best ability—giving radiant smiles. Severe cerebral palsy and developmental delay restrict all of this 22 year old's abilities. At the Homes for 11 years, she melts the hearts of all staff and visitors.

Ayman, 28 made a marvelous discovery—himself! Brought to the Homes at age 5, his physical deformities had kept him confined to bed. Recently, lots of devoted physical therapy and a specially adapted wheelchair freed him to sit up and enjoy the wonder of his image in the mirror.

Deemed, and treated as totally incompetent and worthless by the brother and his family with whom she lived, Haneen, 59 came to the Homes 11 years ago. Then bedridden, recovering from a hysterectomy and severe bedsores and severely depressed, she's now blossomed into an eager baker of treats for residents and staff.

This Christmas, please help us continue to provide room—and joy—at our inn for 68 people with severe special needs. \$50 will provide fruit for two days, \$100, 10 physical therapy sessions, \$250, meat for two days, \$565, two weeks' salary for our most experienced nurse, \$1,000, water for an entire month, \$1,300 small gifts for each of our 68 residents and 65 staff. 100% of your gift will enhance these lives.

May your Christmas be filled with blessings and joy.

Gratefully,

Liz Mulford, President
