

Put Your Hands Together Expansion Project

We will begin laying the foundation for the pantry building in May, God willing! It has been quite an experience managing the rapid growth of this ministry, only possible through faith in God. We are on the fast-track to complete the project by September, in order to give the space back to the school that the pantry has been taking over for the past 3 years.

We could use help with fundraising the last leg of this race, \$50,000 to go. Like trying to lose weight, those last few pounds are the tough ones! We can't guarantee any additional grant funding will come in time needed for completion, so we have begun a multi-media fundraising campaign this month through our congregation fundraising platform.

This happens to be a monumental undertaking for our church, our 1st new ministry building project since Immanuel Lutheran School & Church in Hillside was formed 170 years ago!

Please prayerfully consider donating to our fundraiser for the Put Your Hands Together expansion project.

Blessings on your day,

Jayne Siou
